

TRUSTFUL, PASSIONATE,  
NOURISHING, HARD WORKER

# Healthcare Leadership, Quality & Systems Improvement

*From good doctor to system changer  
lead, innovate, and improve.*

## What You'll Learn:

- Foundations of quality improvement (Lean, Six Sigma, PDSA)
- Tools to reduce medical errors and enhance safety
- Strategies for leading interdisciplinary teams

## Why Attend:

In modern medicine, leadership and systems thinking are not optional—they're essential. Become the physician who improves care, not just delivers it.
