

TRUSTFUL, PASSIONATE,
NOURISHING, HARD WORKER

Mastering Clinical Decision-Making & Evidence-Based Medicine

*Make every decision count—based on the
best evidence, not just experience.*

What You'll Learn:

- How to critically appraise clinical research
- Apply statistics like NNT, sensitivity, and likelihood ratios to daily decisions
- Integrate guidelines and patient values with confidence

Why Attend:

Physicians in every specialty face decisions under uncertainty. This course empowers you to make faster, safer, and more defensible clinical judgments.
